Powercraft™ Electronic Welding Helmet

The new, lightweight Powercraft™ Electronic Welding Helmet offers outstanding value for money. The unit comes with a fully adjustable shade lens manufactured to AS1338.1 and both external and internal CR39 cover lenses.

- > Adjustable Delay Time - delays the change from dark to light states by up to one second.
- > Adjustable Shade Settings - from shade 9 to 13
- > Solar Powered - no more replacing flat batteries
- > Suitable for MIG, MAG/CO2, SMAW, Air Carbon Arc Cutting, TIG (DC 3amp, AC Alloy 9amp, DC Pulse 5 amp), Plasma cutting and welding applications.
- > Easily Adjustable Harness – for improved comfort
- > 12 month warranty

Ultrashade® Trackside Helmet

- Variable shade 9-13

Head and Eye Protection

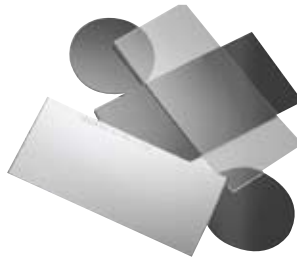

Lift Front Welding Helmet

- Includes Shade 11 Green Filter Lens, manufactured to AS1338.1
- CR39 anti-spatter cover lens
- Polycarbonate fixed lens for increased safety
- Adjustable harness with sweatband
- Supplied fully assembled

Replacement Filter Lenses

- Range of filter, cover and clear lenses, manufactured to AS1338.1
- 108 x 50mm to suit Lift Front Helmet No 94006941
- 50mm dia to suit Lift Front Goggles No 94006909
- Standard Green Filter Lenses, and heat reducing "mirrored" Lenses
- CR39 Anti-spatter cover lenses in both 108 x 50mm and 50mm dia sizes
- Polycarbonate clear lenses in 108 x 50mm

Safety Equipment

Shade 5 Flip-front Goggles

Shade 5 Spectacles

- Made in Germany by UVEX®
- Shade 5 lens, medium impact rated to AS1337 / AS1338.1

Clear Spectacles

- Made in Germany by UVEX®
- Wraparound style clear lens medium impact rated to AS1337 / AS1338.1

Welding Safety Kit

Basic welding safety equipment kit to suit apprentice or student. Includes:

- Lift front welding helmet
- Shade 5 lift front oxy cutting goggles
- AS1337 certified wraparound safety spectacles
- 390mm leather welding gauntlets
- 165mm reinforced calfskin TIG gloves
- Lincoln Electric® Literature Pack including useful information on basic welding techniques, applications and safety
- Packaged in a Lincoln Electric® black sports bag

Welding Curtains & Blankets

Welding Curtain and Frame

- Red 1.8 x 1.8 metre
- Made with a specially-formulated vinyl 16mil (0.4mm thick)
- Transparent and resistant to UV rays, flame and abrasion
- Modular frames offer versatility, easy set-up and portability

Caution: Screens are not intended to be a substitute for safety eye protection!

Gold Fibreglass Welding Blanket

- 30oz. gold fibreglass, neoprene coated on both sides
- Temperature rated at 538°C (1000°F)
- Ideal for heavy duty applications
- Dropcloth protection against sparks, molten metal splash, welding spatter and grinding spray.
- 1.83m x 1.83m trimmed edges

Silica Fabric Welding Blanket

- 18oz. silica fabric
- Temperature rated at 1260°C (2300°F) Melting 1649°C (3000°F)
- Ideal for heavy duty applications
- Dropcloth for protection against severe molten metal splash and extremely high temperatures
- 1.68m x 1.73m hemmed edges

Safety Equipment

Apparel

Premium Leather Jacket

- Kevlar® stitched
- Made from durable and pliable side split cowhide
- All leather seams are double lock stitched with high-strength, high heat-resistant, 5 ply, Tex 90 Dupont Kevlar® thread
- All stress points are riveted or double leather reinforced
- Flame retardant sateen-lined collar provides skin-contact comfort and absorbs sweat
- All rivets and snaps have electrical insulation
- Sports jacket raglan shoulder construction enhances freedom of body movement
- Roll-up collar stops shooting spatter during out-of-position welding
- Leather spatter guard at front panel stops shooting spatter
- Double leather reinforcement at front panel prevents snap pull-out

Aluminised COMFOflex® Gloves

- Designed for use in high radiant heat welding processes
- The Aluminised PFR Rayon is flame and heat resistant
- The double mirror aluminisation can reflect up to 95% of radiant heat
- Palm side of the glove is made of thick, pliable and durable side split cowhide
- 360mm length glove has an inner cuff lined with a flame retardant fabric for extra safety
- 4-ply Dupont Kevlar® sown for added durability

General Purpose Gloves

- Select split cowhide
- Reinforced palm
- 75mm starch cuff

Drivers Gloves

- Side split cowhide
