

PIN WELDER

Contact Type - Pin Welder

Materials - Mild Steel, Stainless Steel, Aluminium
Brass, Including Galvanized and Copper Finishes

Suitable for Thin Sheets

Suitable for HV AC Applications

Easy to Operate

Powerful, Compact and Robust

ACCESSORIES

TECHNICAL DATA

Input Voltage /HZ	AC240V-2P 50/60HZ
Input Rated Fuse	10-25A
Power	Electrolytic Capacitor
Output Power	DC
Shell	Steel
Protection Grade	IP31
Welding Speed	Max 40pcs /Min
Welding Ranges	Air Duct Insulation nails, Marine Insulation Nails, Power Plant Hook Nails
Cable Length	3m
Capacitor Capacity	124000uf
Output V	35-96V
Welding Time	0.001-0.003S
Input Power	350W
Welding Ranges	Air Duct Insulation nail < 2mm
Welding Type	Torch
Weight	10KG
Size	365 x 210 x 250mm
